

TECHNICAL INFORMATION BULLETIN
FOR THE USE OF MAJESTENE®

FOR SEED CORN MAGGOT ON CUCURBIT VEGETABLES (Cantaloupe, Cucumber, Edible Gourds, Muskmelon, Pumpkin, Summer Squash, Watermelon, Winter Squash and Zucchini)

FIFRA Section 2(ee) Recommendation

This recommendation is made as permitted by Section 2(ee) of FIFRA, as amended, and has not been submitted to or approved by the U. S. Environmental Protection Agency.

FOR USE IN ALL STATES WHERE CROP AND PEST(S) EXIST AND WHERE 2(EE) RECOMMENDATIONS ARE RECOGNIZED.

MAJESTENE®
EPA Reg. No. 84059-14

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Crop	Target Soil Insect	Application Method	Product Use Rate per Application	Application Instructions
CUCURBIT VEGETABLES (Cantaloupe, Cucumber, Edible Gourds, Muskmelon, Pumpkin, Summer Squash, Watermelon, Winter Squash and Zucchini)	Seed corn maggot (<i>Delia platura</i>)	In furrow	1-2 gallons applied in furrow	For control of low to medium infestation levels of seed corn maggots, use an in furrow application in a minimum of 3 gallons of water per acre at planting. Please refer to In-furrow and T-band Application Rates for determining the proper amount of product based upon row width. When very high pest infestation levels are anticipated or encountered, other effective soil treatments may be necessary. Supplemental control with drip applications, where available, may be necessary on a 14- to 28-day schedule for seed corn maggot control post-emergence. Please refer to Chemigation Use Instructions and Specific Requirements for Drip (Trickle) Chemigation .
Do not enter or allow worker entry into treated areas during the restricted-entry interval (REI) of 4 hours .				

All applicable directions, restrictions and precautions on the EPA-registered label are to be followed.

This FIFRA Section 2(ee) recommendation contains new or additional directions for use of this product, which may not appear on the package label. Read and carefully observe the cautionary statements plus all the other information appearing on the product label.

This recommendation must be in the possession of the user at the time of pesticide application.
