

TECHNICAL INFORMATION BULLETIN
 FOR THE USE OF STARGUS[®] BIOFUNGICIDE TO
 SUPPRESS *Fusarium (Fusarium oxysporum)*
 ON FLOWERING PLANTS, BEDDING PLANTS AND HEMP
 IN BOTH ENCLOSED OR FIELD PRODUCTION

FIFRA Section 2(ee) Recommendation for use only in California

This recommendation is made as permitted by Section 2(ee) of FIFRA, as amended, and has not been submitted to or approved by the U. S. Environmental Protection Agency.

STARGUS[®]

EPA Reg. No. 84059-28

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Crop	Target Disease	Application Methods	Product Use Rate per Application	Application Instructions
Flowering plants Bedding plants Hemp	<i>Fusarium (Fusarium oxysporum)</i>	Soil drench during transplant Soil drench following transplant Sub-surface drip and micro-sprinkler chemigation	3-4 quarts per acre	For soil drench applications during transplanting, apply this product during transplant at the rate of 3-4 quarts per acre in sufficient water to moisten soil around each transplant. For soil drench applications after transplanting, apply this product at 3-4 quarts per acre in up to 100 gallons of water per acre For application through sub-surface drip or micro-sprinkler irrigation, apply at a rate of 3 - 4 quarts per acre at seeding, at transplant, or following transplant or plant emergence in sufficient water to thoroughly soak the growing media and root zone. Make an initial application of this product during or shortly after transplant or seedling emergence to reduce transplant shock, suppress <i>Fusarium oxysporum</i> inoculum and improve root growth. Multiple applications can be made on a 10- to 21-day interval.
<p>STARGUS[®] has a pre-harvest interval (PHI) of 0 days. Do not enter or allow worker entry into treated areas during the restricted-entry interval (REI) of 4 hours.</p>				

All applicable directions, restrictions and precautions on the EPA-registered label are to be followed.

This FIFRA Section 2(ee) recommendation contains new or additional directions for use of this product, which may not appear on the package label. Read and carefully observe the cautionary statements plus all the other information appearing on the product label.

This recommendation must be in the possession of the user at the time of pesticide application.
